

MODEL 2006AF A-FRAME STEP~LADDER with GATE **FEATURES & SPECIFICATIONS**

- VINYL WORKS CANADA manufactures this Step System to meet or exceed NSPI/BOCA/ANSI requirements for entry systems, in-pool steps, ladders and ladder enclosures
- The Model 2006AF Entry System is manufactured using maintenance free resins to maintain strength & color. Stainless hardware is used for years of worry free use
- The system is designed for 300 lb capacity (one person). It is a stable entry system; ideal for every day use and easier to climb as compared to a conventional a-frame pool ladder
- The Step-Ladder System is packaged so it can be shipped via courier (two cartons total)
- The Model 2006AF includes the full gate to meet requirements for enclosures. The gate is self-closing, self-latching and lockable (lock not included)
- The System utilizes double handrails for both the inpool and exterior portions for greater safety and ease of entering & exiting the pool. Clearance between handrails is 16.5". The exterior portion of the unit is entirely enclosed for protection when the pool is not in use
- All treads measure 7.5" x 16.5". This makes the system very easy to climb when entering and exiting the pool
- The system is extremely easy to assemble, most of the components simply snap together
- The top platform spans 12" deep x 16.5" wide to protect the top rail of the pool and allows for easy entry & exit of the pool. The top platform adjusts up & down to accommodate any pool wall height from 47.5" minimum to 56.25" maximum
- Minimum obstruction of swimming space ~ unit occupies only 22" within the pool (ideal for smaller pools)
- Smoothly rounded base allows inpool portion of stair to be stable and not damage the pool liner. A ladder or stair pad can be used for additional protection if desired (sold separately)
- The in-pool portion of the system is designed to prevent entrapment while allowing great circulation of the pool water (both through the side frames and through the tread risers)
- All stair treads and top platform have been designed with a non-slip surface for safe use
- The risers are embossed with no diving and no jumping signs for safety reminder. As well, the entry contains all required safety signage (embossed directly into the gate at entry)
- The Model 2006AF Step System can be used with our Pool Fence systems to totally enclose and secure your pool. Both our 24" and 36" fencing will connect to the handrail uprights by using our 2006AF Connector Kits (sold separately)
- Each unit includes explicit installation instructions and all necessary hardware for proper assembly. Vinyl Works Canada's toll free customer service number is printed on all instruction sheets should any customer need assistance
- VINYL WORKS CANADA reserves the right to change or alter the manufacturing specifications within the specified code restrictions. If there should be any questions regarding this or any of our other products please do not hesitate to contact our customer service department at toll free 1-877-VINYL WK
